**Statement from County Executive Dan Vrakas
Regarding County Board Downsizing**

County Executive Dan Vrakas said, “It is unfortunate that the County Board was unable to reach a consensus to downsize itself today. However, numerous supervisors, local officials and a citizen’s group have voiced their desire to delay action on downsizing the County Board. I believe we will continue to debate this issue in Waukesha County. Soon, a newly elected County Board will be seated. Ultimately, this delay will allow more citizens to weigh-in on the downsizing of the County Board by contacting their County Supervisor or by participating in the petition drive.”
